

City of Newport Model Engineering Society

The Junior Challenge Cup

Description

This cup was generated by the Society to promote involvement from junior members.

History

This cup was purchased by the Society to recognise the contribution by junior members of the Society.

Trophy Management

The trophy is presented annually. It is normally awarded at the society social evening held in the first quarter of the year. If a social evening is not held then the trophy can be awarded at a time to be decided by the committee.

The trophy is held by the winner for a period of 11 months, after which it must be returned to the event organiser to enable sufficient time for the next winner's details to be engraved on the trophy. A smaller plaque is then awarded to the winner, which can be retained.

Competition Rules

- The event is open to all current junior members of the society.
- Any member may recommend any junior member for consideration of this award to the Committee.

Judging Procedure

The trophy will be awarded to any junior member who in the opinion of the committee has contributed to the objectives of the society over the preceding year or demonstrated an ambition or flare for matters relating to the club activities.
